Hi Eve-

Yes i already know. Well i was actually there giving the guys water as they where cleaning up that mess and more..  
Thank you,

Liz

Hello, Liz! I just wanted to follow up and let you know I went by the underpass tunnel of the 210 at Kagel Canyon this morning. I wanted to follow up with you and let you know that it has been cleared out by our CSLA teams, in case you hadn't already seen it. Thanks, and take care!

Hello, Liz. As I am sure you have seen, Edison cleared the large encampment that was set up in the trees on the Edison easement on Monday. Please let me know right away if it begins to re-establish and I will reach out to my contact at Edison to request a cleanup before it gets too established again. Also, Juan Solorio and myself met with Phil Serpa of USACE yesterday to make sure we had a clear understanding of exactly where each easement is located (both Cal Trans and Edison), so we can refer properly to the right agency. Jude from Assemblymember Rivas' office was in attendance as well and is working to remove the encampment on the Cal Trans easement in the trees. He also made a site visit last week with the Cal Trans supervisor, and they are making a work plan to address the encampment. I am sure he has been in touch with you as well, but here is his contact information again so you can keep in touch regarding the second encampment on Cal Trans property. Juan and I are also following up to request a cleanup of the area/passageway under the 210 freeway; there wasn't an active encampment there but definitely a lot of trash that needs to be cleared. I will keep you posted with an update on that as well. Thanks, and have a good rest of your evening.

Hi Eve-

That's great news. it's beautiful thing to see a Latina in office 💎💎

Why don't I see concern about the big homeless encampment that is on Osborn st across the Hansen dam park(off the 210 fwy) on the empty lot that is adjacent to my property.

couple months ago they clean up that area, well it's worse now. The trash is 3x bigger now, they have about 12 homeless people in that encampment. And small children. We have seen them.

Not to mention theses people are way to close to my back yard property.  
you clearly see it from the fwy.

these people really need help. What are you doing to help? Or maybe this new council lady should be informed of this situation immediately.

Would your office like to see pictures????

Approach these people w caution. They are NOT NICE at all!!!!  
more like the cops with you. my neighbor and I already learned.

Thanks,  
home owner, with a major issue!

Hello, Josie. The CD7 update that I shared with you on February 27 for the LVT Neighborhood/Business Watch is the same CD7 update that I share with all the meetings I attend in the LVT area, such as LVTIA, FTDNC, and BoC. I am including them again below, including a couple of updates that have happened in the past six days.

- the Councilwoman was appointed Chair of the City's Public Safety committee in January, becoming the first Latina and the first woman in fourteen years to serve in this position

- the Councilwoman secured over half a million dollars in HEAP funding (the state's Homeless Emergency Aid Program) to support homeless families in the Northeast San Fernando Valley, to fund a navigation center for families as well as other hygiene and support services (like childcare)
- our initial \$1 million funding for the wildfire debris cleanup grant was used up as of the end of January - fortunately, we have been able to secure another \$500,000 in additional funding from Cal Fire, for the next couple of months until crews began to transition to the Woolsey Fire area - we will continue work removing wildfire debris, and also damage from debris flow, in the burn areas of La Tuna and Creek fires, including continuing work in Hansen Dam - we are also collaborating with County Supervisor Barger's office to provide crews to do work on the County-owned lands along Wentworth - we are now hiring again for the new job positions, with priority going to people that live in the affected wildfire areas (for Creek and La Tuna fires) and veterans - have them contact our office if needing work and interested to participate
- Street Services has been doing a lot of work over the past few months on street resurfacing in LVT, including sections of Eldridge, Garrick, Kamloops, Lexicon, Kelowna, Terra Bella, Terra Vista, Luanda, Glamis, Goleta, and Goren. Crews added several access curb ramps along Kamloops and are currently adding more ramps on Garrick to improve accessibility for all residents
- the Bureau of Sanitation will be holding a meeting with homeowners near Lopez Canyon Trailhead to address neighbor concerns and how City will mitigate these concerns - meeting will be on 3/28 at 7:00p at LVT Rec Center - Sanitation will be sending out notification shortly to the contact list
- met with the FTDNC Equine committee and with LADOT this past month to review signal timing and safety at several horse/pedestrian crossings in the LVT, Shadow Hills, and La Tuna areas
- held a Senior Ball for Valentine's Day with over 350 seniors from our local senior centers in attendance
- per the park rangers, the California Department of Alcoholic Beverage Control came out to Hansen Dam on a Sunday last month and issued citations to two of the vendors for selling alcoholic beverages
- the LVT Rec Center has had the refinishing of the interior basketball court and exterior courts completed

- Fenton and Terra Bella sidewalk - BoE has packaged construction documents for the construction bid to go out this month, the property owners have been notified to move the storage unit prior to March 15th, estimated construction time for the project is 3 months
- the City Council unanimously approved the Councilwoman's motion directing the City Attorney to draft an ordinance to allow the City to shut off water and power services at illegal cannabis shops. In a joint effort with law enforcement and City agencies, nearly two dozen illegally operated cannabis shops have been shut down and over 20 search warrants have been served in the Northeast San Fernando Valley in the last twelve months
